### Kapitel 3: I know I love you

I begin to live when I saw you  
You were only a friend  
But I know I love you  
I get to know you soon  
I love you more and more  
I know that it would work  
Yes, I was sure  
I told it my mum  
When we drove home  
I was so happy  
I knew I wasn't alone  
We met us everyday  
At school and in the breaks  
It was so beautiful when you say:  
"I will ever stay!"
