Mental violence

Don't try to find the truth
Don't find out the answer
You don't want to know

I loose my wings of eternity
And all my hope is meaningless
Since I was caught into your cage

Embarrassment – I lost my feelings
My love to you sick
How does it feel to be loved

Sweet innocence helps me
To pray for freedom
I don't can hope and love and think

If there is a god
He don't really like me
Because he wants that I meet you

Searching for help
Trying to understand
the reason of life
