Kapitel 1: English

Oh baby hit me.
Hurt me baby. Do it.
Make me suffer. I've been a bad bad boy.
Scar me. Excite me. Don't stop. Don't ever stop. Keep going. Forever.
Burn yourself into my skin. Carve your name into my face. That I might never forget
this night of painful extasy.
I wanna feel your teeth tearing at my flesh. I want you to make me scream as you dig
your claws into my back.
Bring out the animal.
I want to see my own blood. Know that some day I will die. Welcome it.
Open the door. Show me my death.
Let the end bring me comfort and pleasure. Snatch me back at the last minute.
Show me this reality of pain.
Tell me that no matter how hard it gets, the pleasure of dying is worth it.
Tell me I will not die for nothing.
