

Pain

Von Ryutsuki

Pain

The sun shines darker
All things loose their colours
Black and white
Like an old bad film

All the painful memories
All the dark thoughts
They flowing with the wind
The world sinks into pain

The humanity is destroyed
There is no more life
No more feelings
an love doesn't exists either

Sadness is over all
The world will be lost in time
And in the end
There will be nothing than pain
