

# False Accused and nonetheless happy

Von alanqi

## Prolog:

Welcome, welcome dear Customer to the world of fandom  
where reality and fantasy meld in the blink of an eye,  
hush, step closer, courageous one,  
enter the realm of freedom where free spirits live a second life  
beyond all bounds of real life  
never forget it is but fun  
look into the mirror  
oh brave one,  
and see, see  
yourself, your friends, your heroes  
everyone you wish to see is already here, I promise  
come on take a look,  
yeah, that`s it look closer,  
closer  
see the mist behind the curtain already forms the specters, don`t hesitate  
go, go they are waiting for you... (my own, head of many stories since 1995)
