Kapitel 1: Neku's letter

-Joshua (Yoshiya Kiryu)
14/4/15 Shibuya

Hey over there.

I know, you'll probably never read this.

But anyhow, I just feel like I have to do this now. Kinda emo.

You know? I still can't forgive you, but you are my partner after all, and I feel lonely somehow, without talking to you.

So I'm gonna tell you stuff from my daily life those days.

I won't ever get an answer, because you aren't there anymore, but...

Shiki's my girlfriend now, and my mom and I moved, so I don't have to deal with my dad anymore.

You're dear to me, so I miss you a little, but things are going on, you know?

Shibuya hasn't changed a bit. Same crowds, same noises anyway, but I'm getting to love it.

Streets full of people... Not being seen, but being under them.

I think you're the only one to get that.

I could never talk like that to Shiki, or could I?

I didn't do for a long time...

I think, you gave me the right light on things. I'm gonna tell Shiki, and leave my past, including you, behind. Thanks for showing me the way.
